Logo variants, colors, and usage basics

Logo Variants

Use the flat version for UI, the glass version for marketing, and monochrome for print.

Flat (Primary)

Dark Mode

Monochrome

Color Palette

Primary colors (suggested):

Blue #1E88E5

Green #43A047

Slate #5A5F6A

Light Gray #E0E0E0

Usage Basics

■ Do: keep clear space around the logo (at least the icon height / 2).

■ Do: use flat logo in product UI for crisp rendering.

■ Don't: add extra outlines, skew, or change the icon proportions.

■ Don't: place the logo on noisy backgrounds without contrast.
